

Title of the Abstract (max. 80 characters including blanks) John Smith^a, Lucas Ford^{a,b}

^a*IMEM-CNR, Parma, Italy*

^b*IFN-CNR, Trento, Italy*

E-mail: [your e-mail address](#)

The body text font is Times New Roman (size 9) with single spacing and full justification. The total allowed area is 17 x 24 cm.

The **title** (in bold size 10 pt) is followed by the name(s) of the author(s) in normal text 10 pt (the presenting author is first and underlined). Affiliations (10 pt in *italics*) must be concisely reported, with no line breaks. The e-mail of the presenting author is recommended (normal text). The body text of the abstract should be a single paragraph. A blank line precedes the body of the abstract and the references (if any). **Three** keywords, separated by commas (use bold and lower cases) terminate the abstract (see the recommended list at: <http://www.iucr2005.it/image/documents/keywords.pdf>).

No indentations and no blank lines should appear between paragraphs.

The references, indicated by square brackets, [1], [2].. should be continuous and typed with font size 8.

Insert graphics (min. res. 300 dpi) only if strictly necessary. Please consider that the area of the printed abstract is small and that the graphic will be correspondingly smaller. Save your diagram at the correct size and in gray scale (or at a great reduced color depth) before including them in your abstract.

It is advisable to use a proof print to check the graphic quality before submission.
